

5

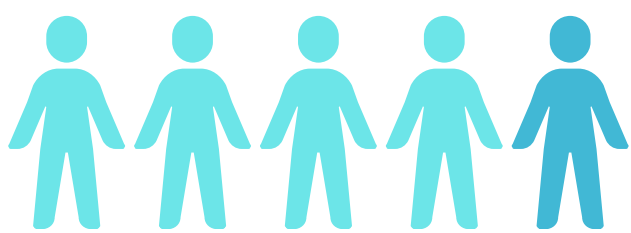

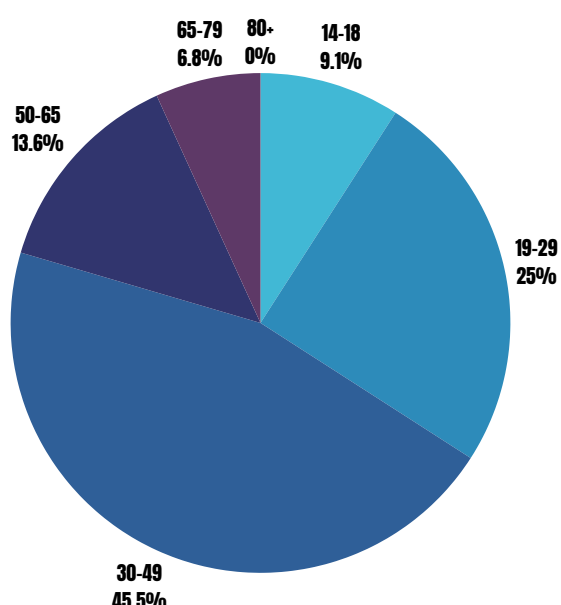

Key Findings from our 2022 NEEDS ASSESSMENT SURVEY

1

Respondent Ages

We noticed that most respondents were between the ages of 30-49.

We noted that there were no respondents 13 or younger and 80 and older.

2

Access to Healthcare

Respondents scored overall 3.91 out of 5 for their access to everyday healthcare needs.

3

Community Support

Respondents rated Community Support as 62% with 18% responding under 50%.

4

Feeling of Safety in London

Respondents feel 63.6 percent safe within the city, with others feeling unsafe of contacting authorities if needed.

5

Services Respondents Want to See

Respondents would like to see Skill & Relationship Building Programs, Educational Workshops and Drop In Support
